

BT Syrah Rose 2010

Winery: Bodegas Santa Quiteria

Region: Almansa D.O.

Grapes: 100% Syrah

Winery: Formed in 2001 Santa Quiteria's production is focused on a type of Grenache known as Garnacha Tintorera. Other grape varieties used, but to a much lesser extent, are Tempranillo, Syrah, Cabernet and Petit Verdot. The site of the vineyards is at an altitude of between 900 and 1100 meters, which has proven ideal for this special clone of Grenache.

Wine: Produced from 10 year old Syrah vines. The grapes are hand harvested into boxes and see cryomaceration with skins prior to pressing. The wine is fermented at cool temperatures to keep intense varietal aromas, deep color and fresh fruit character in the finished wine.

Reviews:

“The new vintage of roses is arriving just in time for warmer weather. This sappy sample from Spain is a deep red in color, with bright fruit and a slightly sweet finish. Not at all classic, but a crowd-pleaser.”

1 ½ stars *Washington Post* May 4, 2011 - **Dave McIntyre** *Recession Busters*

“The 2010 BT Syrah Rose offers up attractive notes of rose petal and raspberry. Savory, fruity, and nicely concentrated for its humble price, it will deliver enjoyment over the next 12-18 months.”
