

San Roman 2016

D.O. Toro
Grapes: 100% Tinta de Toro

94
points

“The 2016 San Román was cropped from a generous vintage, which meant great balance in the grapes, good freshness, very fine tannins and less concentration. Having said that, I think the wine has great aging potential; it’s not really a light wine (it’s Toro after all), and it has structure and good grip and a classical profile, still quite generously oaked and in need of some time in bottle.”
